PSA Condition of Entry

IMAGE AND ENTRY REQUIREMENTS: This exhibition is open to anyone; however, an entry may be rejected when the Sponsor or the Exhibition Organizers, in their reasonable discretion, believes the entry does not conform to exhibition rules and these Conditions of Entry. Membership in any photographic organization is not required.

Sanctions: Entries will not be accepted from any entrant who is currently sanctioned by PSA. Entry fees are not refundable in these circumstances.

PSA Star Ratings: To receive proper Star ratings credit from PSA, entrants must provide their names and country exactly the same in each exhibition. Aliases are not permitted. Please contact PSA in the event of name changes or relocating to another country. Using one's name differently in different exhibition exposes the entrant to the risk that many of their acceptances may not be recognized by PSA Star Ratings.

Image Creation: Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally.

Certification: By virtue of submitting an image, the entrant certifies the work as his or her own. Images may not incorporate elements produced by anyone else (for example: clip art, images or art by others downloaded from the Internet). Aliases are not allowed.

Reproduction: The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors. The exhibition assumes no liability of any misuse of copyright

Alteration and Computer Generation : - Subject to Divisional restrictions (particularly Nature, Photo Travel, and Photojournalism) images may be altered, either electronically or otherwise, by the maker; adjustments to enhance images or creatively modify images are allowed providing the underlying photograph is retained in a way that is obvious to the viewer. Images may not be constructed entirely with a computer, and must be the sole work of the author

Re-use of accepted images: Any image that has been accepted in this exhibition, past or present, may not be entered again in the same Division Star Ratings Class any future instances of this exhibition. It may, of course, be entered in any other PSA recognised exhibitions but **must always have the same title. Re-titling in another language is not allowed.**

Entry: An Entry consists of, up to and including, four (4) images entered by a single entrant into the same Section. An entrant may only enter a specific Section once.

Titles: Each image must have a unique title **that is a description of the image**. That unique title must be used for entry of that image or of an identical Image into any and all PSA-Recognized exhibitions. Titles must be 35 characters or fewer. No titles may be visible to the judges, and nothing in the image may identify the maker. Titles may not include file extensions such as .jpg or .jpeg (or any other camera capture filenames such as IMG 471). Titles may not consist of personal identifiers possibly augmented by a number; or include words such as “untitled” or “no title”. Titles may not consist solely of numbers unless those numbers are prominently contained within the image, such as a contestant number in a race.

Color and Monochrome:

Color and Monochrome images from the same capture that share substantial pictorial content in common will be considered the same image and must be given the same title.

The Exhibition will be conducted in accordance with the rules of the PSA

An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images will be in the same round order as submitted by the entrant.

Judging method:

1. The 1st and 2nd round of Judging will be on site judging. Judging will be done offline.
2. (a) For onsite judging: Computer monitors, laptops will be used by Judges for judging and it will be color-calibrated. Capable of showing Images at 100% magnification.
(b) For remote judging: the judges will use color-calibrated monitors.
(c) In both the case the projection equipment, computer monitors will be capable of displaying images at 100% of the image resolution and the images will be displayed at exactly 100% of their resolution (that is, that the images will not be enlarged beyond their native resolution).
3. **Target range:** The target range for acceptances will be within a 6 point range – i.e. 22-25%.

DATA PROTECTION

By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

SUBJECT MATTER AND SECTION DEFINITIONS

Statement on Subject Matter applicable to all sections

The fundamental rule that must be observed at all times and **applies to all sections** offered in exhibitions with FIAP patronage or PSA recognition is that **the welfare of living creatures is more important than any photograph**. This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any exhibition with FIAP patronage or PSA recognition. Under no circumstances may a living creature be placed in a situation where it will be killed, injured or stressed for the purpose of obtaining a photograph. This rule applies regardless of whether or not the creature being killed, injured or stressed is visible in the captured image.

There are also concerns about the use of aerial photography, drones, helicopters, low flying aircraft. These should not cause any interference with other individuals or animals which causes a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment.

Entry in this exhibition is conditional on accepting these policies. The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the Exhibition Organizers - do not comply, will be disqualified so the entrant may be aware of the problem when considering entry into other exhibitions with FIAP patronage/PSA recognition.

Further details on the PSA's drone policy may be found at <https://psa-photo.org/index.php?psa-policies#drone>

PSA Monochrome Definition

An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.) A greyscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work.

Greyscale Monochrome images may be entered for Nature, Photojournalism and Photo Travel but toned images are not permitted for these sections.

Nature sections without any awards for Wildlife

PSA / FIAP Nature Definition

Nature photography records all branches of natural history except anthropology and archaeology. This includes all aspects of the physical world, both animate and inanimate, that have not been made or modified by humans.

Nature images must convey the truth of the scene that was photographed. A well-informed person should be able to identify the subject of the image and be satisfied that it has been presented honestly and that no unethical practices have been used to control the subject or capture the image. Images that directly or indirectly show any human activity that threatens the life or welfare of a living organism are not allowed.

The most important part of a Nature image is the nature story it tells. High technical standards are expected and the image must look natural. Adding a vignette or blurring the background during processing is not allowed.

Objects created by humans, and evidence of human activity, are allowed in Nature images only when they are a necessary part of the Nature story.

Photographs of human-created hybrid plants, cultivated plants, feral animals, domesticated animals, human-created hybrid animals and mounted or preserved zoological specimens are not allowed.

Images taken with subjects under controlled conditions, such as zoos, are allowed.

Controlling live subjects by chilling, anaesthetic or any other method of restricting natural movement for the purpose of a photograph is not allowed.

No modification that changes the truth of a Nature image is allowed. Images may be cropped but no other technique that removes, adds or moves any part of the image is allowed.

Techniques that remove elements added by the camera, such as dust spots, digital noise and lens flare are allowed.

Complete conversion of colour images to greyscale monochrome is allowed. Partial conversion, toning and infrared captures or conversions are not allowed.

Images of the same subject that are combined in-camera or with software by focus stacking or exposure blending are allowed. Multiple images with overlapping fields of view that are taken consecutively and combined in-camera or with software (image stitching) are allowed.

*Attention is drawn to the PSA Statement on Subject Matter which applies to **all** sections*

Photojournalism without any special Award for Human Interest

Photojournalism Definition

Photojournalism entries are images with informative content and emotional impact, reflecting the human presence in our world. The journalistic (story-telling) value of the image should receive priority over pictorial quality. Images that misrepresent the truth, such as those from events or activities arranged specifically for photography, or of subjects directed or hired for photography, are not eligible.

Techniques that add, relocate, replace, remove or change any element in the original scene, except by cropping, are not permitted. The only allowable modifications are removal of dust, scratches or digital noise and restoration of the appearance of the existing scene, or complete conversion to full monochrome. Other derivations, including infrared, are not eligible.

*Attention is drawn to the PSA Statement on Subject Matter which applies to **all** sections.*

For the purpose of this exhibition, toned images are not allowed in Photojournalism sections. Any monochrome image entered must be "greyscale monochrome".

Vignettes and Borders

For the purpose of this exhibition, vignettes are not allowed in Photojournalism Digital images. Any border added must be a single border of white or grey, no greater than 3 -5 pixels in width.

PSA Photo Travel Definition

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

*Attention is drawn to the PSA Statement on Subject Matter which applies to **all** sections*

Vignettes and Borders

For the purpose of this exhibition vignettes are not allowed in Photo Travel Digital images. Any border added must be a single border of white or grey, no greater than 3 -5 pixels in width.

Breaches of Rules

If, at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- a) the images are the original work of the entrant and
- b) the images comply with the rules and definitions as set out in these Conditions of Entry

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations

PSA retains the right to investigate in any way all complaints/suspicious of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

If another party is submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to these Conditions of Entry (Entry Rules) **and will be subject to sanction for any violations** to these Conditions of Entry and PSA's Statement of Ethics that may result. If another party is processing images for an entrant or submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to all Conditions of Entry including the specific conditions in the relevant definitions.

NOTICE:

When an entrant fills in the Entry Form to submit an entry the entrant will see a feature to affirm he or she has read these Conditions of Entry when he or she fills out the entry form. If the entrant does not so affirm the entry will not be submitted.

Disqualification Norms:

- A) Barred entrants from PSA will not be allowed in this circuit.
- B) Monochrome images may not be entered in PID Color sections.
- C) Color images may not be entered in PID Monochrome sections.
- D) Images which do not adhere to section definition shall be liable to be disqualified.
- E) Submitted images in ND, PT & PJD may have borders within 3-5 pixels.
- F) Disqualifications are for breaches of PSA rules, PSA Statement on Subject Matter and violations to the PSA definitions.
- G) In case a raw file is requested by the organizer, non-compliance within the stipulated time may result in disqualification of the submitted image.
- H) If two judges DQ then the DQ stands. If only one judge DQs then it must be discussed.
- I) If an image is DQd in one judging of a circuit then it must be DQd in all judgings.

J) Preferably on the scorecard DQ should be stated with a reason for the DQ.

PSA Statement on Subject Matter

There is one hard and fast rule, whose spirit must be observed at all times and applies to all sections offered in PSA recognised exhibitions.

The welfare of the subject is more important than the photograph.

This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any PSA exhibitions.

There is also a PSA policy on the use of aerial photography - aircraft, helicopters and drones. This policy can be found at <https://psa-photo.org/index.php?psa-policies#drone>.

The purpose of this policy is to prevent any interference with other individuals or animals which will or may cause a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment. Entry in this exhibition requires exhibitors to agree to this and other PSA policies

The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the Exhibition Organizers - do not comply are likely to be disqualified so the entrant may be aware of the problem when considering entry into other PSA recognised exhibitions.

PSA Definitions:

1. MONOCHROME: An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.) A greyscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work.

Monochrome images may be entered in PID Color sections but will only be eligible towards PID Color Star Ratings if accepted.

2. PSANature Definition:

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.

The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality

Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.

Scientific bands, scientific tags or radio collars on wild animals are permissible.

Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted.

Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning.

Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed.

Stitched images are not permitted.

Color images can be converted to greyscale monochrome.

Infrared images, either direct-captures or derivations, are not allowed.

Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

Attention is drawn to the PSA Statement on Subject Matter which applies to all sections

3. PHOTO TRAVEL: A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

Attention is drawn to the PSA Statement on Subject Matter which applies to all sections

- **ENTRIES WILL NOT BE JUDGE WITHOUT ENTRY FEE.**

FIAP / FIP DEFINITION OF MONOCHROME:

A Black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome Work with the various shades of grey. A black and white work toned entirely in a single color will remain a Monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand, a black and white work modified by a partial toning or by the addition of one color becomes a color work (polychrome) to stand in the color category; such a works requires color reproduction in the catalogue of a salon under FIAP Patronage.

FIAP / FIP DEFINITION OF COLOUR PHOTOGRAPHY:

Entries must originate as photographs (image captured of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. Pictures on any subject including creative or experimental Images can be submitted.

Use of Computer-generated graphics is totally restricted excepting Creative thematic section.

All element of the image must have been shot by the author. No part of the image should have been taken from Net or other person's image. Use of some filters available on net is permissible.

Same images either color or mono in two different sections of the same Salon will result in disqualification for both the images.

FIAP / FIP DEFINITION OF NATURE PHOTOGRAPHY:

Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology* and archaeology*, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. (Suggested*: An example will be helpful to the New Jury).

The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

1. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
2. Scientific bands, scientific tags or radio collars on wild animals are permissible.
3. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are eligible.
4. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
5. Complete conversion to greyscale Monochrome is allowed but without partial or complete toning.
6. It is perfectly legal to remove dust, flares or digital noise. Minor global colour/tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Selective darkening of background is prohibited. Techniques like panning, slow shutter speed or in-exposure zooming are part of your creativity. Use of filters like Polarizers and NDs are ok.
7. Drone Photography in the National Parks of India is illegal except with prior written permission from the concerned authorities.
8. Welfare of the subject is extremely important. Use of live bait is totally prohibited. Relocated nest is a big NO and jury members should not award Nest images. Images entered in Nature section meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

FIAP / FIP DEFINITION OF PHOTO TRAVEL:

Photo Travel image must express the characteristic features or culture of a land as they are found naturally. There are no geographic limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not appropriate. Close up pictures of people or objects must include features that provide information about the environment. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowed adjustments are removable dust or digital noise, restoration of the appearance of the original scene, and complete conversion to grayscale monochrome. Other derivations, including infrared are not permitted. All allowed adjustments must appear natural.

1. A travel image depicts features of a culture, place or people as found naturally, anywhere in the world.
2. Images of individuals or group must show their environment or location.
3. The image should not be a SET UP image and it should not be a directed image.
4. It should not be from a PHOTO WORKSHOP where a troupe dances for the workshop organizer or HORSE are made to run in dust or water or an individual shows his acrobatics on payment of a fee.
5. Many monasteries have religious festivals with dances etc, and it is perfectly legal to submit such images though you may have paid an entry fee. Same is true for ballet and other stage shows.
6. Images shot at fairs where the subject is obviously posing for you, with or without payment, is only good for pictorial section. On the other hand, a candid image is good for PT section.
7. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
8. Complete conversion to greyscale Monochrome is allowed but without partial or complete toning.
9. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for

you only but use it judiciously. Correction of perspective is perfectly legal. Techniques like panning, slow shutter speed or in exposure zooming are part of your creativity. Filters like Polarizers and NDs are ok but Star effect or rainbow filters are illegal.

10. Drone photography is OK as long it is legally permissible in that part of the world. In India use of DJI Mavic Mini model of Drone is perfectly legal, except in areas where Drone Photography is prohibited by the authorities like National Parks etc.

11. Finally, be sensitive to the community or people whom you are shooting. Care for your subjects and care for your fellow photographers as well. If someone doesn't wish to be photographed, please respect the person's feelings and greet her or him with a sweet smile before parting ways.
